## Justin F. Kimball High School Alumni Association®

### *A Note from the Association President....*

#### **Greetings to Kimball High School Alumni Everywhere!**

Your new Board of Governors has been hard at work getting all "our ducks in a row" to reinstate the Alumni Association as a 501c3 non-profit charitable organization. Several things are happening to achieve this - the most important is rewriting the by-laws. A committee made up of alums from the 60's, 70's and 90's is hard at work creating a new "plain English" document that will serve the association for the next 10 years, if not longer. It is a slow process so be patient with this committee as they work to develop a strong set of by-laws to govern the Association. The process is being guided by an attorney experienced in non-profit law and is enjoying working with this energetic and dedicated group of alumni. They've come up with some creative ideas to broaden the scope of the Association. You will be advised about progress and also asked for input when the finished product is sent out for approval. **Steve Cumming (74)** is chair of this committee and he will be posting progress reports throughout this process. (*View committee reports at [www.justinfkimball.org/bog\\_minutes.shtml](http://www.justinfkimball.org/bog_minutes.shtml).)*)

As most of you know, Kimball is at high risk of closing due to poor academic performance. Now is the time to stand with us with your support and ideas to help our school regain its strength and honor.

Sincerely,  
Bonnie Roberds (61), President  
Justin F. Kimball High School Alumni Association®
